2. Use BEEP Disinfectant Spray on surfaces to prevent the spread of the contagious H1N1 or "swine flu" virus.
3. Use Beep Disinfectant spray to sanitize phones, doorknobs, kitchen counters and bathroom surfaces.
4. Use Beep Disinfectant on garbage cans to kill odor causing bacteria.
5. Use Beep Disinfectant Spray to sanitize kitchen counters before preparing meals to avoid contracting the Salmonella Poisoning which is very painful and can cause severe sickness.
6. Spray Beep Disinfectant Spray on toilet seats and surrounding after flushing the toilet to avoid microscopic bacteria from infesting your bathroom.
7. Beep Disinfectant Spray kills the germ which causes gastro. This germ is found in contaminated surfaces like counter tops and causes food poisoning.
8. E Coli is a common sickness which is caused by contaminated food surfaces or food. Use Beep Disinfectant Spray to protect yourself against it.
9. Beep Disinfectant Spray protects you & your family against harmful germs which cause sicknesses such as salmonella poisoning.
10. BEEP Disinfectant Spray can be used on a variety of surfaces in the home, office and at school.

- 
11. Spray bathroom tiles and bath tubs to protect your family against mold allergens that can cause severe allergies.
12. Spray BEEP Disinfectant Spray on suitcases and shoes after travelling abroad before unpacking in your room, you can avoid dust mites and other allergy causing bacteria to infest your home.
13. Spray your children's school bags and rain coats to help protect them against viruses and bacteria as they may come in contact with them while on the play ground and at school.
14. Use BEEP Disinfectant Spray to clear the air of air borne viruses and bacteria while creating a refreshing your environment for your entire family to enjoy.
15. Use BEEP Disinfectant Spray on Pillows, Cushions, Sofas, and Mattresses to provide that extra freshness while cleaning your home and keep your furniture free from viruses and bacteria.
16. Spray BEEP Disinfectant Spray on your desk, key board and telephone at work to keep you germ free.
17. Use BEEP Disinfectant Spray to protect those who already suffer problematic diseases like AIDS or those undergoing Chemotherapy so they do not contract the staphylococcus Aureus which can enter the body through cuts and scratches and may cause reactions from mild rashes to severe pneumonia or sepsis.
18. BEEP Disinfectant Spray also protects against Hepatitis A which can cause liver disease and can be spread by ingesting fecal matter, which can be transferred to food or other surfaces by: a parent or caregiver (e.g. in a nursery or elderly home who has not washed their hands after changing a diaper), or an infected person who has not washed their hands after using the bathroom.
